Full Stack Developer with 4+ years of experience in building scalable web apps using Next.js, React, an Node.js. Skilled in AI API integration and user-focused development.

Skill & Tools

- **Frontend** : React, Next.js, TypeScript, Tailwind CSS, Bootstrap, Shadcn UI, GSAP
- **Backend** : Node.js, Django, RESTful APIs
- **Database & Cloud** : Supabase, PostgreSQL, Docker, Vercel (Cloud Deployment), CI/CD
- **Automation & AI Integrations** : OpenAI API, Gemini API, Cursor, n8n, Zapier, WordPress (Headless/API-based CMS)
- **Dev Tools & Workflow** : Git, GitHub, npm, VS Code, Postman
- **Design & Prototyping** : Figma

Work Experience

NJ Designpark – Bhilai   October 2022 – Present / Full-time

Full Stack Developer & Project Manager

- Engineered scalable web solutions across the stack using Next.js, Node.js, Supabase, and PostgreSQL; built platforms like **Trades Business School CMS** (AI document processing) and **NuHome** (B2B2C marketplace with multi-tenant access).
- Designed and deployed a standalone UK Postcode API with secure authentication, API key generation, usage tracking, and domain-based blocking — streamlining address validation for client-facing apps.
- Integrated OpenAI and Gemini APIs to build advanced conversational systems, enabling smart chatbots and automation features that significantly improved user engagement and internal efficiency.
- Delivered 20+ custom WordPress websites and led UI/UX design in Figma to improve user experience and engagement.
- Introduced and managed CI/CD pipelines using Vercel and GitHub Actions, reducing deployment friction and boosting release frequency by over 30% through automated testing and delivery.

Freelance – Remote   January 2020 – October 2022 / Freelance

Full stack Developer & Designer

- Delivered end-to-end web solutions for diverse clients, from UI/UX design to deployment, using Django for backend and HTML/CSS/JS for frontend.
- Built and launched company websites like **Updoer Technologies** and **Astonsys** using Django, delivering clean, responsive designs tailored to client needs.
- Developed and deployed itsneeraj.com, a personal portfolio built with Next.js to showcase skills and project work.
- Created fast, SEO-optimized apps like apstic.com and a cookie-based daily tracker (neeraj-workout.vercel.app) with Next.js.

Projects

- **apstic.com** : Crafted a responsive landing page using Next.js, focusing on fast load times and SEO.
- **trekova.com(in development)** : Designing a full-stack travel platform with Supabase and Next.js to enable activity discovery, guide booking, and itinerary automation.
- **neeraj-workout.vercel.app** : Built a simple workout tracking application with Next.js, managing daily lists and storing data securely via cookies.
- **itsneeraj.com** : Developed a dynamic online portfolio using Next.js, serving as a showcase of my projects and skills.

Education

Chhattisgarh Swami Vivekanand Technical University – Bilaspur   2020 – 2023

Bachelor Of Technology in Computer Science
